Contemporary Nordic Comics
Nordiska Akvarellmuseet 31.1-14.3 2010

During the first months of 2010 the Nordic Watercolour Museum is going to show the exhibition Contemporary Nordic Comics. In the exhibition space there will be a section where the visitors can look through and read books and magazines with works of Nordic comic artists. We would like to display such a wide range of expressions and publications from the Nordic comic scene as possible. Do you make your own comic fanzine? Would you like to present it in our exhibition? Please send us copies. We will put them on display in the reading section of the exhibition. Participate and help us make this an even more exciting exhibition!
